

Marwa Ali

Full-Stack Developer

Cairo, Egypt | +20 111 153 4159 | marwaali.n2012@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with project-based experience building modern web applications using React.js, Next.js, Laravel, Node.js, and MySQL. Transitioned from an accounting background into software development through intensive self-learning, professional training, and hands-on projects. Passionate about writing clean, scalable code and creating responsive, user-focused applications. Seeking an entry-level Full-Stack, Front-End, or Back-End Developer opportunity across Egypt or the GCC region.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), jQuery, TypeScript, React.js, Next.js, Bootstrap

Backend: PHP (Laravel), Node.js

Database: MySQL

Tools: Git & GitHub, Postman

Practices & Other Skills: RESTful API Design, Responsive Web Design

Additional Exposure: Basic UI/UX principles (introductory)

WORK EXPERIENCE

Full-Stack Developer — Project-Based Experience | Function Development Program Jun 2024 – Present

- Began with front-end development — building responsive, user-friendly interfaces using HTML5, CSS3, React.js, and JavaScript, and translating wireframes and mockups into clean, accessible code.
- Expanded into back-end development using PHP (Laravel) and MySQL, building scalable server-side logic, RESTful APIs, authentication, and role-based authorization.
- Took on front-end-only, back-end-only, or full-stack work depending on each project's requirements, applying the appropriate skill set end-to-end.
- Collaborated with fellow developers, product managers, and designers to debug issues, implement new features, and deliver complete, user-focused functionality.

Related projects: [Mamba](#), [Product Management System](#), [Admin Dashboard](#), [Moda Italia](#)

Junior Front-End Instructor | Function Aug 2025 – Oct 2025

- Supported bootcamp students in understanding core React.js concepts, including components, state, and hooks, after completing the Front-End Diploma program.
- I reviewed and corrected the code with my colleagues and provided constructive feedback to promote best practices.
- Clarified front-end fundamentals and answered technical questions to help students complete hands-on assignments.

PROJECTS

Device Haven — Full-Stack E-Commerce Website Feb 2026

Live Demo: device-haven.vercel.app/ | GitHub: github.com/marwa622012/DeviceHaven

- Developed a full-stack e-commerce web application using React.js and Laravel.
- Built secure RESTful APIs to manage products and application data.
- Implemented user authentication and authorization, product browsing, category filtering, shopping cart, and product detail features.
- Designed a responsive, user-friendly interface optimized for different screen sizes, backed by a MySQL database.

Technologies: React.js, PHP (Laravel), MySQL, Bootstrap, RESTful APIs, Git, GitHub

Product Management System

Dec 2025

GitHub: github.com/marwa622012/product-management-system

- Developed a full-stack product management system using React.js and Laravel.
- Designed and implemented RESTful APIs for seamless frontend-backend communication, with complete CRUD operations for product management.
- Built secure authentication and role-based authorization; integrated image upload, form validation, and MySQL database management.

Technologies: React.js, Laravel, MySQL, Bootstrap, RESTful APIs, Git, GitHub

Moda Italia — E-Commerce Website

Sep 2025

GitHub: github.com/marwa622012/Modaitalia | Live Demo: modaitalia-76mc.vercel.app/

- Developed a responsive fashion e-commerce website using React.js with reusable UI components for maintainability and scalability.
- Implemented product browsing, category filtering, and product detail pages, integrating RESTful APIs to display dynamic product information.

Technologies: React.js, JavaScript, Bootstrap, HTML5, CSS3, RESTful APIs, Git, GitHub

Admin Dashboard

Jul 2025

Live Demo: dashboard-gamma-flame-74.vercel.app/ | GitHub: github.com/marwa622012/Dashboard

- Developed a responsive admin dashboard for managing application data and monitoring business metrics.
- Built reusable React components following a component-based architecture; integrated RESTful APIs to display dynamic data and statistics.
- Implemented responsive layouts, filtering, and data visualization features with a focus on clean UI and performance.

Technologies: Next.js, React.js, JavaScript, Bootstrap, RESTful APIs, Git, GitHub

COURSES & ONLINE PROGRAMS

Advanced Back-End Diploma | FunctionJan 2025 – Dec 2025

Front-End Diploma | FunctionJun 2024 – Dec 2024

Web Development Program | Udacity — Egypt Future Work is Digital (egFWD)Oct 2021 – Feb 2022

EDUCATION

Bachelor's degree in accounting | Cairo University2010

LANGUAGES

Arabic: Native

English: Upper-Intermediate (B2)
